Ex. 6 - Personal Privacy Lora,

The result that was reported at 20 ppb on the finished water was an error. This is the sample I

mentioned during Saturday's brief. See below message. All results have still been non-detect.

Thanks,  
Greg

Sir,

I'm not sure if you spoke with someone over the weekend, but that number should have been 2.04, which would be reported as a non-detect. I'm so sorry for the confusion.

Sincerely,

**Ex. 6 - Personal Privacy**

Hello,

Can you look at the body of your email below where the 00:00 sample for Finished MCHM is 20.4 ppb and then that sample is read as Non Detect on the actual pdf report. Could you let me know which is correct.

Thanks!  
Greg
